Workload Automation: Automating Every Generation's Business Processes for nearly 40 years...

For many enterprises, workloads and platforms never disappear, but creates levels of legacy that must be managed. *The good news?* Automic automates and orchestrates every single relevant Data Center technology for the Past 40 Years

Heterogeneity Counts

Gartner

“

Most organizations have added automation tools in an opportunistic way — one project or problem at a time. What is needed is an overarching architecture to enable integration and avoid overlaps.
